

We at TKR ensure that SeaSun salt contains optimum levels of iodine required by your body. The benefits of using iodized salt are numerous, as the whole body depends on these two minerals in order to function properly.

Iodine deficiency can cause

- Mental retardation in children and lower IQ.
- Rapid progress of cancer.

Adequate amounts of iodine

- Prevents Goitre
- Prevents Attention Deficient Disorder (ADD) in children
- Prevents miscarriages
- Promotes better heart health
- Reduces cholesterol.
- Iodine helps in the normal growth and maturity of reproductive organs in teenagers
- Necessary for the production of thyroid hormones
- Increases the efficiency of white blood cells in protecting your body
